EXTREME OWNERSHIP ACADEMY

The Extreme Ownership Academy is Echelon Front's online platform for leadership training. It offers courses, live sessions, assessments, and practical tools that help teams build a shared language, strengthen accountability, and execute with confidence: anywhere, anytime.

TRAIN ANYWHERE

Leadership development shouldn't stop because your people are in different places. The Academy gives teams access to live and self-paced learning from the office, jobsite, or on the road. Training stays consistent and aligned to the same principles, no matter where work happens.

STRATEGY & TACTICS THAT WIN

We don't teach theory. We teach what works in high-pressure situations. Extreme Ownership Academy provides clear frameworks for decision-making, communication, and ownership, along with drills your team can use immediately. Strategy gives direction; tactics turn that direction into results.

LEADERSHIP DEVELOPMENT & ALIGNMENT PROGRAM

CUSTOMIZED PROGRAMMING & CONSULTING

Leadership Development and Alignment Programs [LDAP] are highly interactive engagements that match clients with a dedicated team of Leadership Instructors. Programs range from just a few months to multi-year engagements to identify and address the organization's most pressing leadership challenges.

LEADERSHIP TAILORED TO YOUR MISSION

Your organization is not generic; your leadership system should not be either. We design a program that fits your goals, culture, and operational realities. Through workshops, coaching, and guided implementation, we help your leaders build a clear, sustainable playbook they can execute with confidence.

ALIGN EVERY LEVEL & MEASURE REAL OUTCOMES

Leadership breaks down without alignment, clarity, and measurement. LDAP installs a consistent cadence for priorities, communication, and ownership so executives, managers, and frontline teams move in the same direction. Then, we track progress against meaningful metrics, linking behaviors to results and making improvement visible and repeatable across the organization.

BOOKS

CRUCIAL TRAINING TOOLS

Jocko Willink and Leif Babin's bestselling leadership books turn combat-tested lessons into practical tools anyone can apply. Their work provides clear, actionable principles that help leaders take ownership, communicate effectively, and win in any environment.

WHY THESE BOOKS MATTER

These books translate real-world experience from the battlefield and the boardroom into simple, powerful frameworks for leadership. *Extreme Ownership* has reshaped how organizations think about responsibility, discipline, and execution. *The Dichotomy of Leadership* explores the balance required to lead well, while *Leadership Strategy and Tactics* serves as a field manual for navigating day-to-day leadership challenges.

THE NEXT BOOK IN THE SERIES: THE NEED TO LEAD

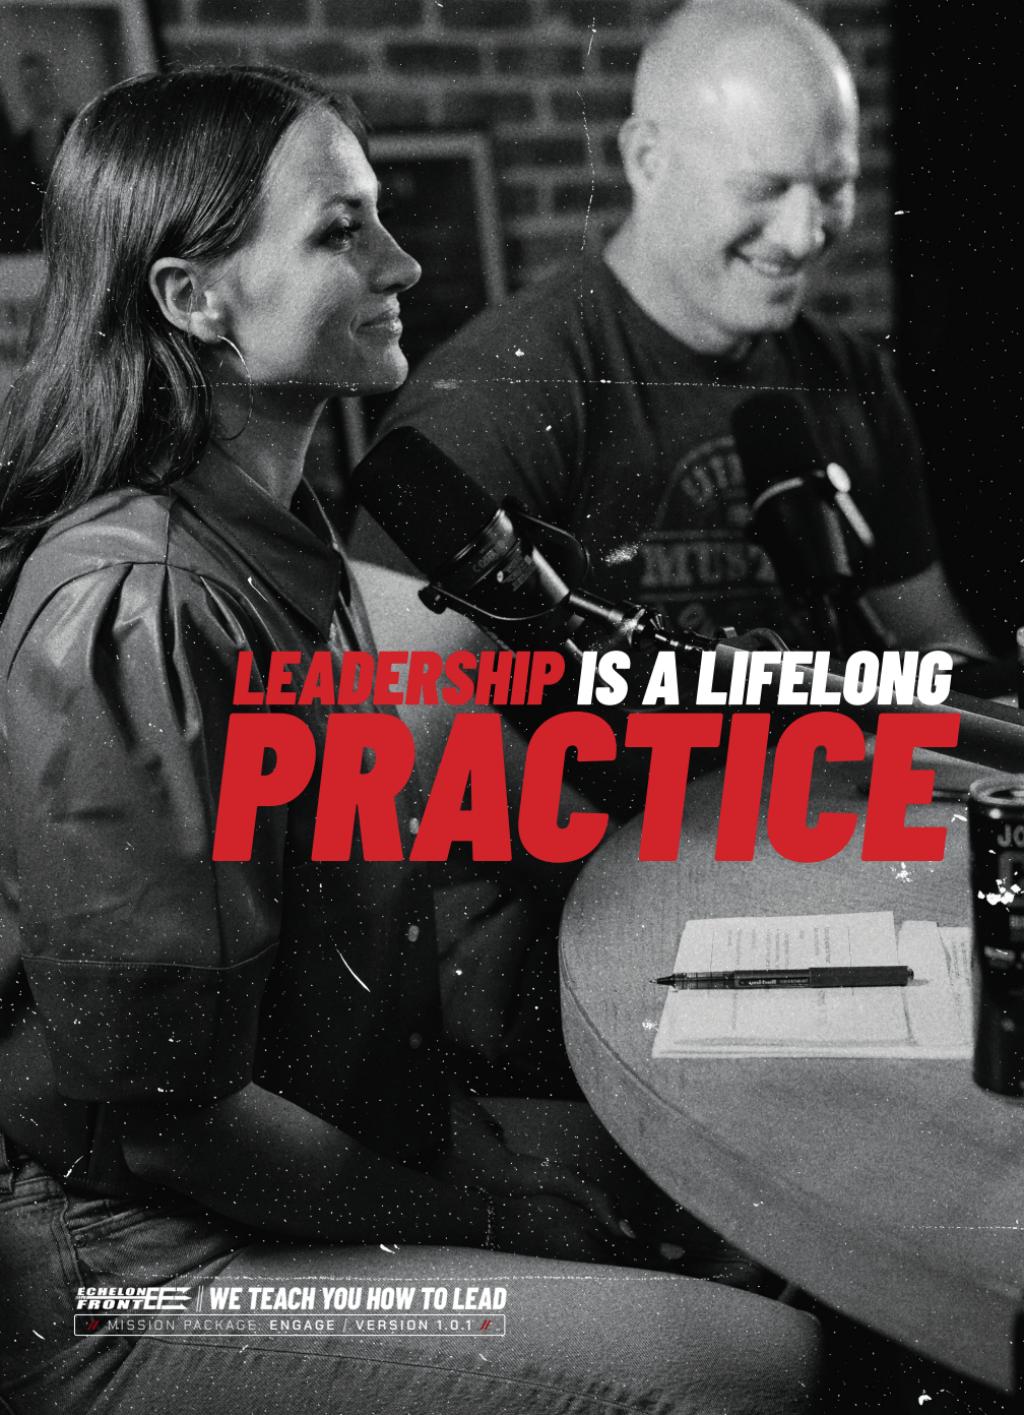

The Need to Lead invokes the classic Top Gun movie quote. It is also an undeniable truth that author Dave Berke experienced as a Marine Corps officer, fighter pilot, TOPGUN instructor, ground combat leader, husband, and father. This book, based on his experiences and teachings, helps readers be better leaders and understand that leadership is a universal requirement for success, no matter the environment.
